It will be a scene that will teach the "Greasers" of Mexico that republics are not ungrateful.

The Newbern Times says: On last Sunday night while an old colored man was "sitting up" with the body of a white woman who had died a day before, she was taken suddenly sick, and died almost instantly.

"It is all the fame to me, as it is property of the Empire. I leave trouble of getting better furniture my successor. I bought all these cloths that you see at auction, at sale of a French ambassador."

"I remarked that my furniture was very much the same. Very soon the notes entered; dinner was announced, and, coming to me, she beg-

it to ignore the whole obligation as a part thereof. The proposition, if carried out, is a bold and daring theft of the property of honest and confident creditors, and one that must entail discredit upon its authors and upon the State of North Carolina. Burglary.

Henry Wilson (colored), was

captured on Monday night in the store

of North and Walnut streets. It seems

that he was making a desperate at-

tempt to get into the safe, and had so

far succeeded that a few minutes more

work would have sufficed to have

placed the coveted prize, the contents

thereof, within his grasp. Fortunately,

however, the noise alarmed Mr. Hes-

hagen, who lives above his store, and

who, after going down stairs, succeed-

ed with the assistance of some of his

neighbors and the police in preventing

the escape. We hear that there was

some considerable money in the safe at the

time.
